Abstract

'We created an art and exhibition-based beautiful museum website with awesome unique elements. It shows the artistic statues that exist around the world. Through our website, you can have a glance at past exhibitions and enjoy arts from all over the world. Videos and photo galleries are still available to view online.

1 Website Header

In our website header we have nav-bar which contains many tabs such as:

- Translation Option from arabic to english and vice versa
 - Visit
 - Exhibitions
 - Collections
 - About
 - Contact
 - Search Button
 - Get a Ticket (Button)

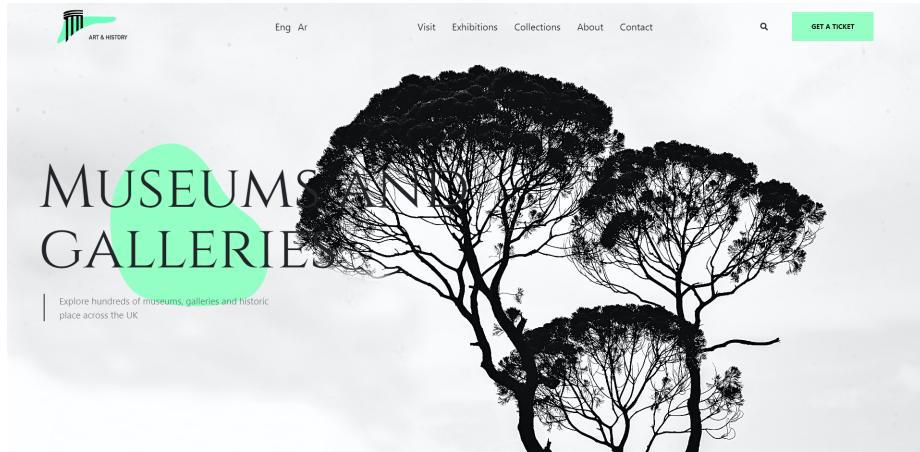

Figure 1: Header

1.1 Search Button

We added a feature to the search button that shows recent events when clicked on and allows the user to search for old ones. You can check all of these in Fig 1.

2 Museum of Art

In this section, we are illustrating some information about the world's leading museum of art. We announce the opening times, online booking methods, and provide location services. You can check this on Fig 2.

3 Upcoming Events

We will inform the visitors with the necessary information about the upcoming events, such as the date, location, and event speakers. Fig 3.

4 Safety Measures

Safety of our visitors is a priority so, we provide a 3 steps to ensure their safety:

- ensure social distancing.
- we provide an online method for booking tickets
- We created a virtualized version of the museum on the website.

see this on Fig 4
